PONTOONS | 2020

Simplify your life.

Life gets complicated and schedules too full. Demands on your time grow and the to-do list never gets shorter. Your remedy is gliding through silky water on your pontoon, buffeted by warm summer air and lake breezes. It's time to press the pause button, unwind, and simplify. Bring the family together and invite friends to enjoy less complicated hours relaxing on your Qwest pontoon. Anchor for fun at a sandbar, fish for tonight's dinner, linger onboard for cocktails as the sun puts on a show. Pontoon your way into a simpler reality. You can trust Qwest pontoons to embody the exceptional quality and remarkable comfort that encourages you to relax, enjoy, simplify.

Qwest Advantage

Apex Marine is an independently owned manufacturing company that builds high quality pontoons and fishing boats. Our advantage is that we are vertically integrated, building and controlling the quality of our boats internally. We use modern technology and innovative designs to manufacture boats that incorporate a brilliant use of space, unique Ultra Flow seat ventilation, and usable, real world features. Qwest pontoons are designed to be lightweight for ease of handling on and off the water while increasing performance and enabling powerful fuel efficiency. With progressive ideas, premium materials, and a great line of options, we will produce a pontoon boat to fit your lifestyle with quality you can feel.

LS Series

The Qwest LS is a premium luxury pontoon boat that combines sophisticated styling and smart detailing. Exclusive amenities surround you in ultimate comfort as you slip into relaxation and a whole lot of fun.

Electric Power

Choose an electric drive to power your Qwest pontoon boat. Simple and reliable to operate, zero-emission electric drives are the environmentally friendly way to be on the water by eliminating the noise and fumes of a gasoline outboard motor. They also cost much less to maintain and operate, and without runs to the marina for fill-ups, there's more money in your wallet and more time to chill.

- The perfect choice for smaller lakes and lakes that ban internal combustion engines
- Ideal for speed-restricted lakes
- Quieter operation makes onboard conversations more enjoyable
- Remote steering and throttle just like a gas outboard
- Convenient to plug in and recharge at the dock

Motors

Torqeedo Cruise 2.0
24V System, Comparable to a 6 HP gas engine. Battery information center in throttle with GPS.

Torqeedo Cruise 4.0
48V System, Comparable to a 9.9 HP gas engine. Battery information center in throttle with GPS.

Minn Kota E-Drive
48V System, Comparable to a 5 HP gas engine. Integrated power tilt & backlit battery gauge in throttle.

24V System, Comparable to a 6.5 HP gas engine. Lighted battery gauge in dash.

Aquamot Trend 4.3
48V System, Comparable to a 11 HP gas engine. Lighted battery gauge in dash.

Optional Solar Charging

- Hinged solar panel available on "Cruise SD" Sundeck models only.
- Can charge 24V or 48V systems, lead or lithium batteries.
- Charges the boat while docked and while running for extended runtimes.

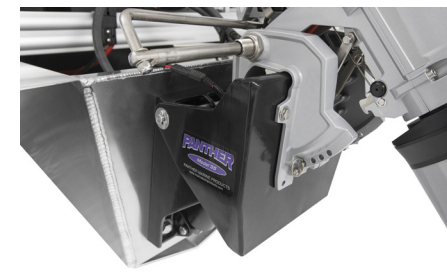

Optional Lithium Batteries

- Light Weight: (1) battery (56 pounds) for 24V systems. (2) batteries (112 pounds) for 48V systems.
- Small Size: One 24V battery is 23" x 10" x 9" height.
- Long Life: 800 full charge cycles.
- Long Runtimes: 139 Ah battery capacity (3.5 kWh) to provide well over 1 hour runtime at full speed.
- Fast Charging: Includes (2) 10 Amp chargers per battery. Fully charged in under 7 hours from a standard 120V outlet.
